PROFESSIONAL SUMMARY

Bridging humanities and engineering for 10+ years. Developed the 'Living Pantheon' artistic ecosystem. Specialized in generative systems, spatial computing (AR), and narrative-as-software primitives.

I am an artist-engineer bridging MFA-level narrative theory with Meta-certified technical execution. I build 'living' systems and performance-grade tools that treat code, sound, and language as a unified medium for exploration.

CORE TECH STACK

Astro | TypeScript | p5.js | Web Audio API | Narratological Theory | Generative Art

EVIDENCE OF TECHNICAL IMPACT

A-Mavs-Olevm (etceter4)

`a-mavs-olevm`

Impact: Launched the 'etceter4' Living Pantheon website. Engineered a 'breathing' UI with generative pathway logic and subtle motion dynamics using Vanilla JS and performance-optimized animations.

ART VANILLA JS PERFORMANCE

Generative Music System

`generative-music`

Impact: Developed a performance-grade audio synthesis engine using the Web Audio API. Mapped symbolic data structures to real-time sonic parameters for live generative composition.

ART AUDIO PERFORMANCE

Narratological Algorithmic Lenses

narratological-lenses

Impact: Translated classical narrative theory (Aristotle, Propp) into executable software lenses. Created computational tools for analyzing and generating structural plot arcs.

THEORY NARRATIVE

TurfSynth AR (My Block Warfare)

block-warfare

Impact: Engineered 'TurfSynth AR,' a spatial computing concept applying neighborhood topology to location-aware gameplay. Bridged physical environment data with game-state persistence.

COMMERCE GAME

PROFESSIONAL HISTORY

Independent Creative Technologist

2021 — Present

Designed and launched the eight-organ orchestration system coordinating 91 repositories across 8 GitHub organizations. Built recursive-engine (1,254 tests, 85% coverage) — a symbolic operating system translating epistemological frameworks into executable Python. Developed generative art/music systems and AI-conductor workflow.

Digital Marketing Manager

2023 — 2024

Miami Dade College Foundation

- Designed and executed digital campaigns increasing donor engagement by 32%.
- Rebuilt foundation website — 38% traffic growth, 22% improvement in donation conversions.
- Produced multimedia storytelling content driving 28% increase in click-through rates.
- Developed social media strategy boosting engagement rates across platforms by 23%.

Multimedia Specialist

2011 — Present

AJP Media Arts

- Produced video, audio, and visual campaigns achieving 17.5M+ views and $2M in client fundraising.
- Integrated SEO and paid media strategies achieving 290% ROI for key campaigns.
- Launched and managed client websites with 42% engagement increase.
- Delivered intuitive UI/UX designs — 26% satisfaction increase, 35% retention improvement.

Instructor (Composition & Rhetoric)

2015 — Present

Various Institutions (MDC, FAU, Nova)

- Designed and delivered 100+ composition courses to 2,000+ students.
- Applied UX principles to create accessible course materials — 92% student approval rating.
- Refined teaching methods using performance analytics — 24% improvement in student retention.

Project Manager

2007 — 2018

Majestic Design

- Led 50 commercial and residential construction projects from concept to completion.
- 90% on-time and within budget delivery.
- Collaborated with marketing teams on 3D renderings and video walkthroughs.

EDUCATION

M.F.A. Creative Writing
Florida Atlantic University
2015 — 2018

B.A. English Literature
CUNY College of Staten Island
2010 — 2014

CERTIFICATIONS

Meta Full-Stack Developer (2023 — 2024)

Google UX Design (2022 — 2023)

Google Digital Marketing & E-commerce (2022 — 2023)

Google Project Management (2022 — 2023)
